

GRAND MOUND PHONET NEWSLETTER

Quarterly Newsletter Published for our Customers

December 2011

Why do you keep getting e-mail messages from people and companies you have never heard of?

Similar to traditional mail, sometimes (okay - many times) you get mail you didn't request (aka SPAM). More than likely, you received the "spam" as a result of one of two things:

1) You may have submitted your e-mail address to a website from which you were requesting more information. When you clicked the "I AGREE" button without really reading the multiple pages of privacy disclaimers, you may have given that particular website permission to sell your e-mail address to third parties.

2) Your e-mail address may have been harvested with millions of others from forwarded e-mail messages. Have you ever received an e-mail message addressed to you and dozens of other people? If that message gets into the wrong hands, your address, along with the others, could be added to a list of e-mail addresses that is then sold to marketers. This is why we recommend using the "bcc:" feature when sending your e-mail message to multiple addresses.

From our staff to all of you, we want to wish everyone a Happy Holiday Season & a Prosperous New Year!

We will be closed for the Holidays on:

Friday, December 23
Monday, December 26
Monday, January 2

ACCESS YOUR GMTel EMAIL FROM ANYWHERE!

When you're away from your regular computer, GMTel Web Based email allows you to use your email account from any computer with an Internet connection. With a GMTel.net Internet account you can login and send or receive email messages while you're on vacation or at a friend or relative's house.

All you need to do is go to our Web page at www.gmtel.net and click on the GMTel Webmail icon located to the left of the photo of our office. Next, type in your username (email name, not the whole address) and password, then **Login**.

The first time you login, you will get a screen that asks you to setup your profile (user preference), click **Continue**. The next page will be your "User Preference" page with different setting options that you can use to set up your Webmail account. In order to make sure that you are able to retrieve all of your messages correctly later on when you check them on your home computer, scroll down to "Default Destination" and highlight and click "Saved". Also scroll down to the bottom of the User Preference screen and remove the check mark from "Move old msg to SAVED at logout". All other settings should be okay as selected. Click **Save** at the very bottom of the User Preference screen to save your settings.

You can view, send, receive and organize your messages using the Webmail interface while on the road and then when you return to your "home" computer you can download the same messages.

If you need additional assistance with the GMTel Webmail, please call **GMTel.net Technical Support** at **1-866-847-4638** (toll free). They are available 24 hours a day, 7 days a week to assist you with Internet related problems.
